Additional income information - Working for Families Tax Credits *(continued)*

From the year starting 1 April 2011 the definition of family income for Working for Families Tax Credits has been extended. You are now required to supply details of income received from the following sources:

▪ **Attributable trustee income**

Attributable trustee income is all income for the year of a trust that hasn't been distributed as beneficiary income. Trustee income will be attributed only to settlors of a trust. The settlors are individuals who establish or contribute funds to the trust.

▪ **Attributable fringe benefits**

If you receive fringe benefits and you or your associates (e.g. the family trust) are shareholder-employees of the company you work for and you or your associates hold voting interests of 50% or more then you need to include the fringe benefits in your family income. The value of the fringe benefit is the tax-inclusive value of the benefit.

▪ **PIE income**

This includes an amount of income attributed by a portfolio investment entity (PIE) to the principal caregiver or their spouse or partner, except if the PIE is a superannuation fund or a retirement savings scheme (e.g. KiwiSaver).
